Profile

Self-taught Junior Software developer with 1,5 years of experience in the IT domain, seeking to pursue an opportunity with a growing organization that will utilize and enhance my knowledge in software/web and mobile development, and that will provide me with essential growth opportunities.

Experience

May 2020—Present

Junior software engineer • BiT-Solutions • Burundi, Bujumbura-Marie

Description:

- Participating in daily scrum meetings, sprint planning, unit testing and bug fixes.
- Implemented access database that used a form in which a client would input data into fields to store entries into a database that was used to track inventory.
- Performed troubleshooting of software solutions.
- Communicated and worked with clients to discuss and determine requirements to implement software solutions that fit their business needs.
- Modifying the front-end code as well as the back-end code to simple functional methods using REACT, PHP, MySQL, HTML, and CSS.
- Developing the components and providers for Rest API calls, to fetch, and store data.
- Participated in the full development cycle, end-to-end, from design, implementation, & testing to documentation, delivery & maintenance.

Education

Jan 2017 - Oct 2019

High-school graduate • King David Academy, Rwanda -Kigali

Combination MPC (mathematics, physics, computer science)
